

easyDITA at a Glance

Everything you need for structured content

Software

easyDITA is a DITA standards-based Component Content Management System (CCMS) that transforms content into flexible, actionable, and manageable data. You can leverage this data across your organization to improve documentation, customer support, marketing, HR, regulatory compliance, and more.

Automate Your Hardest Tasks

easyDITA makes the repetitive stuff easy, so you can focus on the content. Automate your publishing, output formatting, data exchange, workflow, and more.

Create Many Variations from a Single Source

Having many products doesn't have to mean having many copies of the same content. easyDITA manages documentation for many products without the hassle of duplicated or isolated content.

Produce Content for Every Audience

Publish one set of content that's rendered for specific audiences based on who they are, where they are, or what they do.

Author

Our intuitive authoring interface will feel familiar to casual authors, while advanced users will be able to build rich, semantic XML content lightning-fast.

Search

easyDITA's powerful search and filtering allows for hundreds of thousands of files to be searched in under a second.

Classify

easyDITA allows unlimited metadata fields for classifying content and filtering search results. Custom Taxonomy structures enable you to relate and classify content in many ways resulting in better findability and a more productive team.

Manage

easyDITA is an enterprise-grade Content Management System with a single-source content repository, complete link management, and full file history and version control.

Translate

Typical translation costs are prohibitively expensive and require significant amounts of time. With easyDITA XML, your translation and localization processes are fast and affordable.

Publish

easyDITA enables you to transform your DITA content to multiple output formats and publish to static formats, websites, learning management systems, and knowledge-bases.

More than a Brand

easyDITA's intuitive system bolsters the writer's productivity by letting them focus on creating excellent content. The importance of high quality writing has only increased as the functionality of structured content expands. Make sure your organization isn't left behind with outdated, siloed documentation. Contact us and speak with one of our experts about how easyDITA can optimize your organization's documentation.
