

There's a reason we call it Simply XML.™

CONTENT MAPPER™

Easy XML Authoring from Microsoft® Word

Create, edit, and publish standards-based content from Microsoft® Word.

Content Mapper

Keep It Simple Smart-person

Content Mapper is easy to use software that allows you to generate reusable content right from Microsoft® Word, always hiding the XML.

- Information Reuse
- Multi-channel Publishing
- Legacy Document Import
- Training in Structured Writing
- Modern CCMS and Repository Support
- Can Support DITA, Simply Structure, or a Custom Content
